SUNDAY .- For the first time this

year the Sabbath was a bright, sunny day and pleasant and spring-like weather. Divine service was held at all the Churches, and the hearts of the pastors were made glad with large Rev. Dr. Rosser, of Virginia, occu-

pied the pulpit of Edenton Street Methodist Church, being the only change from the regular pastors that we heard of in the city.

Peace, order and quiet reigned throughout the city, not even a case of a "drunk and down" to disturb the ease and composure of the police. Speaking of Police under a "Sunday heading reminds us of the fact that the ill-mannered custom of lounging about the Church yards and doors, after the commencement of service within, should not be permitted by the police, and we take this occasion to remind our Mayor of the evil, that he may apply the proper remedy. One policeman at each Church door from 7½ to 8½ o'clock would have a salutary effect on this class of evil

HUNTING FOR A LUNATIC ASY-LUM.—The Joint Select Committee a suitable location for a branch of th lunatic asylum in one of the Wes tern towns, left the city by the Wes-tern train for Asheville Sunday evening. They propose visiting Marion, Morganton, Hickory, Statesville, Charlotte and other towns in order to select the best and most con-venient site for said asylum.

The committee is composed of Messrs. Anderson and Linney on the part of the Senate, and Messrs. Richardson, Wiley and Moring on the part of the House.

THE RALEIGH LIGHT INFANTRY. THE RALEIGH LIGHT INFANTRY.

—We note with pleasure the marked improvement in the appearance of the Raleigh Light Infantry, "the pride of the city." The Company numbers at present about fifty members and new recruits are admitted every meeting. It is well officered, elegantly uniformed (Confederate gray) and armed with the latest improved breech loading rifles. All that gray) and armed with the latest 1mproved breech loading rifles. All that
is required for the thorough and complete equipment of the Company is
a banner, which we really think the
ladies ought to give them. They paraded the steets yesterday, and their
fine appearance and soldierly bearing was favorably commented upon by every one. They formed in front of the Executive office and was viewed by his Excellency. The Governor acknowledged the call in a handsome and wall these and be added and some one way and the control of the call in a part of the call the call in a part

and well timed address, which we would publish in full but for the presure on our columns. May the Company continue to improve until the Oak City can claim the best drilled Company in the State. DESTRUCTIVE FIRE IN GOLDSBO-Ro.-From the Goldsboro Advertiser we copy the following particulars of a very destructive fire in Goldsboro

on Thursday night last:
"The new and handsome dwelling of our townsman, Mr. Solomon Weil was discovered to be on fire about 12 o'clock, Thursday night last. alarm was promptly given, but all efforts to subdue the flames proved unavailable, and in a few hours this fine building and the kitchen adjoin-ing were entirely consumed. Loss about \$5,500, with insurance to the

amount of \$4,500. "A school-house, near by, the property of Mr. E. B. Borden, was also destroyed. Loss about \$200. No in-

surance.
"The buildings were all unoccupied, and the origin of the fire is a matter of doubt. We understand that Mr. Weil intends re-building at an early day."

WASHINGTON'S BIRTHDAY .- The natal day of him who was "first in war, first in peace, and first in the hearts of his countrymen," the great and good George Washington, the author of the little hatchet story, was duly observed in this city as a na-tional holiday by those who had time to be nationally inclined. The various National Banks closed in respect to his-we mean in accordance with law, and at the usual hour of ad-journment, both Houses of the General Assembly adjourned in respect to the memory of the Father of his

country.
In the afternoon the Raleigh Light Infantry, Capt. B. W. Manly, paraded the principal streets of the city, headed by the Citizens' Cornet Band. These demonstrations indicate a loyalty on the part of our citizens truly gratifying.

MAYOR'S COURT—Monday, Feb. 22.
His Honor Mayor Gorman presiding.
Fannie Mayo, a noted nymph du
pave, was arraigned for stabbing
Murcelline Ferrill, Saturday, in that delectable locality known as Smoky Hollow in the Western Ward.

Fannie was consigned to the tombs in default of \$500 bail. Burgess Reid, barber, for violating the City Sunday Ordinance in rela-

tion to shaving, was fined \$25, but in consideration of his good character, &c., the fine was remitted. ACKNOWLEDGMENT.-Dr. R. Ellis the Steward of the Institute for the Deaf, Dumb and the Blind, has sent us a broom with a curled hickor handle, manufactured by the Blind of the Institution, for which we re-turn thanks. We will express the broom with our compliments to the good lady of Lyon, the editor of the Greenville *Register*, whose husband in a recent article of his paper, says: "We return our thanks to Miss Sallie — (we forget the other name) for a lot of turnips sent us yesterday morning, the largest that has been in

Greenville this season. Oh! that we were a single man." COL. STAPLES' SPEECHES ON USURY.—We propose publishing tomorrow and the next day the two admirable speeches delivered by Col. Staples, Representatives from Guil-ford, in the House pending the con-sideration of the Usury bill. We shall publish the same in pamphlet form for the benefit of the members of 1,2 Legislature. Any member wanting copies of the same will please give notice to-day to the NEWS Repo in the House and Senate, or at the

LECTURE TO-MORROW NIGHT,-Mr. Reid, of Mecklenburg, asked for and obtained the use of the Hall of the House of Representatives for the use of Professor Kerr to-morrow night for a scientific lecture. It is needless for us to say that these lectures, coming from the source they do, are not only entertaining but highly instructive. His lectures heretofore have been regarded as productions of the highest order of merit, and the hall will doubtlsss be crowded to-morrow

ATTENTION SHERIFFS.—In the county, Judge Eure of the 1st Judical District, decided that the fact of a man not having paid his taxes disqualified him from acting as a juror. We learn that this is in accordance with a recent decision of the Supreme Court. If this be so, Sheriffs should hereafter, when required to summon venire to leave out all who stand in the category.

LEACH BROS.—This enterprising firm of Grocers and Commission Merchants advertise in to-day's NEWS an entire column of seasonable goods in their line, and invite a careful examination and inspection from the public. They have in store and offer at satisfactory prices a very large stock of all kinds of groceries and farmers' supplies generally. Give them a call when in search of gro-

REDUCTIONS OF PASSENGER FARES. Baltimore, Feb. 10.—There are no new developments in the railroad war at this point to-day, except the following reductions by the Baltimore and Ohio Company in passenger force:

ger fares: From Baltimore to Kansas City re-From Baltimore to Kansas City reduced from \$34 to \$26; to Memphis, Tenn., from \$34.25 to \$26.25; to Nashville, from \$27.45 to \$19.45; ito New Orleans, from \$56 to \$36; to Omaha, from \$35 to \$25; to St. Joseph, from \$35 to \$26; and St. Paul, from \$33 to \$24. This has been met by a corresponding production by the Benneyland ponding reduction by the Pennsylva-nia road. The rates for western freight are nominal, the shippers in many cases naming the terms.

COMMISSION MERCHANTS.

We call the attention of farmers to our justicy celebrated Wilson "Cotton" and "Universal" turn plow and claim it has no equal as a Cultivator and Turn Plow. The Cotton Plow saving tully 1/2 of the labor, doing the work better, leaving the land in better condition and being much easier to laborer and horse. The catings are made only from the best, new pig iron and last much longer than any other, in many cases two points only being required to make a full crop of cotton and corn. We give below a rew of the many certificales from the best farmers of our country, who have fully tested them.

J. P. Edmonson, Johnston County, The Cotton Plow saves fully % of the labor and is the only cast plow that will do the work. I prefer it to the wrought aveap. The "Universal" Plow is the best turn

Capt. Joe Young, Wake County, says: Your "Wilson" Cotton and "Turn" Plows are the best castings I ever used and no farmer can afford to be without them.

I am satisfied after a through trial, your Cotton plow is the only cast plow made that is a through cultivator and is as near perfection as can be. The "Universal" as a turn plow is in every way equal to the "Watt," and will not choke in any of our lands, and is lighter, thereby saving feel and stock. Daniel Stewart, Harnett County,

Tom Bridgers, Wake County, says:

8ays: "I want no better plow, have used them for years and know them to be all you claim for them, every farmer ought to have them. I cannot farm without them. Dr. Wilder, Wake County, says:

"Your "Cotton Plow" is the best I ever used, and the "Turn" Plow can't be ex-elled, I must have more of them." James T. Leach, Jr., Johnston County, suys: "The "Cultivator Plow" is the only plow use, is good as I want,"

Col. J, W. B. Watson, Raleigh, N. C., says: "Send me six more of your "Universal" Plows, as a turn plow they are unequaled, and the Cotton Plow is the only consistant I can use to any advantage with our present system of labor and the "grass."

H. H. Coats, Johnston county, says:

"I save fully ½ of my plowing, and do the balance essier and better," I would buy them at any price."

L. H. Sanders, Johnston County

N. V. Denton, Raleigh, says: "I refused to buy your plow for a long time from prejudice to cast works, for cot-ton, but after a fair trial I think them the best plow made. I want six more."

We are the Sole Agents for the "Wilson Cotton and Turn Plow in Central N. C., and keep a full stock of plows and castings always on hand and self them at manufacturers' prices. We also have in store a leave and complete stock of

THE Pinchback case was laid on the table Thursday night after a prolonged and determined effort of Morton to carry it through. This means a great deal to Pinchback, for it means the loss of about \$15,-000 in salary for ten years and mileage. And it means that the friends of right have made a successful fight against a barefaced fraud.

THE railroad war between Tom Scott and Garrett brings some benefits to travellers. Fares and freights have tumbled down very pleasantly; and the public claps its hands approvingly. For instance, the fare from Batimore is reduced from \$46 to \$28, from Baltimore to Nashville from \$27.50 to \$19.45. This is the only kind of war that brings good in its train.

We learn with amazement that some men who otherwise have high claims to intelligence still find a cause of hostility to the calling of a convention in the antedeluvian idea that the question of the call of a convention must first be submitted to the people for their approval or rejection. We respectfully refer these gentlemen to the article in the Constitution "on Amendments." They will very speedily have their error dissipated.

J. WILLIAMS THORNE Is a Northern man of the carpetbagger class; a man of education, a man who has cut himself aloof .rom all recognized religious belief, a Republican in politics, and a representative of the colored people of Warren county. The most determined advocates of his immediate expulsive were the colored members, Those who know the susceptibility of the negro race to religious impression, and their ready and simple faith, will readily conceive the shock of the discovery that they had for political companionship, an Infidel.

MR. OAKSMITH.

We published on Sunday morning, as a matter of accommodation to Mr. Oaksmith, his resolutions in troduced as a substitute for those of Mr. Glenn on the Civil Rights question. They were published as a communication from the author of them, and by no means pre-supposed an endorsement of them by us. On the contrary they represented neither our own sentiments or those of the Democratic party. The views of the latter were different and looked to an entirely different disposition of the subject. Neither do we agree in the statement of the writer that he was misunderstood, or misrepresented by our reporter. On the contrary, we think that the hearers of the resolution or the remarks of the speaker will agree that the account of the reporter was strictly accurate and impartial.

THE Hon. Marshall Parks was in Richmond on Thursday last. He is President of the Chesapeake and Albemarle Canal Company, and was much surprised to find in Richmond the resolutions transmitted by the Legislature of North Carolina to the Legislature of Virginia. These resolutions simply ask from Virginia the same power to secure testimony in that State that the Committee has in North Carolina.

This canal is one in which North

Carolina, in its sovereign capacity, has a very large interest, and in which her citizens are vitally interterms, and relentless in their exacested. A publication in the Norfolk tion. Landmark made two or three months ago, gave an astounding exhibit of the amount of produce shipped from North Carolina through the canal, and its vast influence upon the present and future fortunes of the eastern section of this State. Yet the accounts given of the management of the affairs of the company are unsatisfactory, and little is officially known of its condition or business. It was to obtain this information that the resolution was introduced, and the cooperation of Virginia sought. If it is all right. Mr. Parks has nothing to fear from the investigation. If wrong, then the sooner it is made,

the better.

THE pension bill before Congress is made to include among its beneficiaries, soldiers of the war of 1812 who have been heretofore excluded cheap conclusion, for death has got ahead of generosity, and left but few of the veterans to enjoy this postponed bounty. Let Congress show its sincerity of liberality by giving the pension to the "disloyal' soldiers of the Mexican war. They fought for the Union, and mainly won its magnificent extension of territory. No after so-called treason can efface the claims of the survivors upon the justice of the government.

THE extra session of the Senate, called by the President to convene on the 5th of March, has been conceived by many to mean something extraordinary and ominous. It has nothing to do with the subjects now under discussion in Congress. It is only in relation to treaties to be made and ratified, matters over which the lower House of Congress has no control. And it must be recollected that the Senate, which convenes on the 5th, will be a very different body from the present. Twenty-three of them, new members, will be sworn in, most of them Democrats, some of them independent Republicans, far from being in accord with the President. And among the new Senators, is Andrew Johnson.

AN ISOLATED CASE.

Sometime in December last, W. H. Williams, colored, one of the members of the House of Representatives in the General Assembly from the county of Warren, died. and the vacancy occasioned by his death was filled by the election of J. Williams Thorne, white Republican. Upon taking his seat as a member of the House, Thorne declined to be qualified in the ordinary way by the oath taken upon the Bible, and was suffered to do so by appeal or affirmation.

Sometime after taking his seat, a resolution was introduced into the House, inquiring into the right of the new member to a seat in that body, and the Committee on Privileges and Elections was instructed to investigate and report. Early last week, the report was made, but | the Bible, or the Philosopher's God was not called up until Saturday last. Few seemed to have been aware of the nature of the charges, and none were prepared for the astounding substantiation of the grounds of investigation upon which the charges were founded.

The principal, we believe the sole evidence adduced, was a pamphlet, published some years since by Thorne, and admitted by himself to be his own production. This pamphlet was addressed to one Joseph Barker, an English minister, at one time a doubter, but who had had his judgment finally and fully convinced as to the truths of the Christian faith, and with whom Thorne had invited public controversy. The challenge was declined, and not to let the world lose the benefit of his opinions, they were given to the world in this form.

It was read in the full length of

its terrible enormities to a horrorstricken audience. Certainly no such sentiments had ever been heard in this State by a people simple, confiding and unsophisticated in their religious belief. All that was pure in morals, all that was lovely in belief, all that was tender by association, all that was holy, all that was sacred, all that was reverence, was held up to scorn and contumely. The majesty of the Almighty was blasphemed, the wisdom of His decrees degraded. He was portraved as a cruel God, delighting in the eternal perdition of the wretched creatures he had thrust upon existence. He was described as a wicked God, glorying in the companionship of men more than ordinarily seared with guilt : of men whose lives were stained with the blood of innocence, or whose souls were polluted with sins of another kind. HE was spoken of as a digraced Being, making compacts with a mortal, unfair in its

The Saviour was treated with as little reverence. The religion that he inculcated was childish and unsuited to the wants of mankind. The precepts of the Gospel did not make men better or wiser. On the contrary, so far from being a religion of peace, it was by Christians that injustice, rapine, warfare and murder prepogated. The most moral communities in the United States were Free thinkers. The most earnest advocates of human liberty were infidels. Far purer in their lives than Christians were the followers of Mahomet.

But it is not necessary farther to illustrate the character of this abominable production. It con-

vinced every one who heard it, that whatever the writer's views at present, at the time it was written, he believed, in no God such as the on account of disloyalty-a very Christians God, such as is contemplated in the constitutional clause of disqualification, such a one as directs human affairs with superviing wisdom and mercy.

The only evidence adduced in the lefence was a circular issued to the people of Warren county some two or three years ago, in which there are some sentimental ideas of a Supreme Being, ideas that are common to the Hindoo and the Heathen Philosopler; and some pretty and petty verses which any sentimental rhapsodist might produce without having a single religious emotion.

With his religious belief, taken n its sectarian light, the committee nor the House have anything to do. It has only to inquire if the accused denies the existence of God." We take it, that this phrase means something more than that vague idea of a great First Cause of great self-existent Being, which intuitively presents itselt even to the savage. Even "the Devils believe and tremble." The preamble to the Bill of Rights acknowledges a dependence upon Almighty God for the blessings we enjoy. This must mean a God who directs human wants, who loves, and who chastises. This is the Christian's God, and this is the God meant in the constitutional disqualification.

We have no desire to prejudge the accused. The case must stand or fall on its own merits. But we want something more to counteract the impressions made by this horrible blasphemy of Thorne's pamphlet, than a mere general admission of the existence of a Sureme Being. The recognition of the Christian's God includes love and charity towards man and the binding force of oaths and obligations, both towards individuals and towards governments, and this is why the Constitution regulates the matter. The belief merely in a great First Cause leaves human nature to act out its own perfidy and untrustworthiness. And this is the question the House has to decide to-day, whether

I have your letter of the 10th in reference to the improvement of the fisheries of North Carolina, and beg to say that in the event of my being provided with the nec essary means, it is my desire to do all can for the Southern States, especially in the direction of introducing and supplying shad and the Cali-fornia salmon. We cannot be cer-

tain of success, but may deserve it by our efforts.

The local fisheries of the State, such as those connected with the Black Bass, Perch. etc., are much better managed by the State Commissioners, and it is greatly to be desired that North Carolina enter the list of States provided with these officers. They are about being appointed in Virginia, so that with North Carolina added the series will be unbroken to the eastern and central northern borders of the United

My second report, which will be out in a few weeks, will, of course, be to a certain number of copies, at your disposal as a public document. In this your constituents will find the fullest information in regard to multiplication and preservation of fish, the mode of constructing the necessary fishways, etc.

Very respectfully, SPENCER F. BAIRD, Commissioner. To Hon. Robert B. Vance, House of

Representatives, Washington. Consumptives, Take Notice - Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that c-n be brought to support the pretensions of any other medicine, see Dr. Schenck's Almanac, containing the certificates of many persons of the highest respeciability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Manifrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Sts., Philadelphia, every Mon av, where all letters for advice must be addressed. CONSUMPTIVES, TAKE NOTICE - Ever

N GUANO ORCHILLA

A TRUE BIRD GUANO.

VOL. IV. NO 295. dra

Soluble Ammoniated South Sea Guano. B. M. RHODES & CO, Office 82 South Street, Baltimore.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia.

Chemical Laboratory of the University of Pennsylvania West Phreadelphia, January 4th, 1875.

I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by B. M. RHODES & Co., 82 South Street, Baltimore, 182 lbs.," which I found to contain—

MOISTURE, - 15 53 per cent,
SOLUBLE PHOSPHORIC ACID, 4.32 equivalent to 9.43 pr. ct. of Bone Phosphate of Lime
PRECIPITATED, 7.16 15.63 15.63 1.
NITROGEN, equivalent to 298 America. America. America. 8.25 "

2—Sample of "Orchilla Guano, AA, B. M. RHODES & CV, Importers' Agents, 82 Bouth Street, Baltimore, 167 lbs. Curacao," which I found to contain— Phosphoric Acid, - 26.85 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime Alkaline Salts, - 4,33 " 4,33 "

Both samples were certified to having been taken, sealed and sent by Thos. HARRIS HODGES, Notary Public, and were in perfect condition. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano The Orchilla, which seems to be an erganic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchila.

W. P. TONRY,

Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves, well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Satist, but more particularly for the physical condition and exture in which this Guano is presented.

G. A. LIEBIG, Ph. D. This material decidedly reconmends itself to the attention of farmers by its large

proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with I am, gentlemen, respectfully yours, J. W. MALLET, Charlottsville, Va.

RALEIGH, N. C., January 29 1875.

From the Analysis of Dr. Gewith there is no doubt of the high percent age, of Phosphato of Lime in this Guano, and I endorse the recommendations of Prof. MALLET upon the above testimony of himself and Prof. Lingue & Fowry as to its unysteal condition that to offers a destrable source of Phosphoric Acid, to Cotton Farmers and others who have the means of furnishing the Nitrog-nized matter at home.

A Terrible Encounter.

A thrilling and dangerous affair occurred last week in the Manchester Maryland) district. Mr. Jeremiah Fuhrman is a farmer living in that district with his family. Among other valuable property, he was in cossession of a large house dog. This mimal the family took the precaution of chaining every evening; but a few evenings ago it was discovered that he was missing. For several days he remained away, prowling around the neighborhood, enjoying his liberty in numerous fights with other canines, and earning for himself a very precarious living. Being tired at length of his roving life, he returned to his own home, fierce, gaunt and hungry. The next morning after his return, Miss Furhman went to the kennel for the purpose of chaining him. While stooping over him to fasten the collar around his neck, he growled fiercely and preently snapped at her, seizing her by the fleshy part of the hand and biting it through.

The uncle of the girl, who was standing by, and ignorant of the dog eing mad, undertook to punish the rute by whipping him.
A fierce battle atonce ensued. The

man was armed only with a short club, while the dog was now in a terrible fury, frothing at the mouth, snarling and snapping, and assailing his antagonists with all the rage of his madness. For a few moments the fight went on fast and furious, and presently it dawned upon the mind of Mr. Fuhrman that the animal was mad. Then he tried to effect a retreat, but he was not able to do this until the dog had bitten him through the finger.

The ocean off Easthampton is full of ice for several miles from the shore, and the beach is strewn with great blocks. At Westhampton the ocean has been frozen so that a number of persons went out to the bar on the ice, and frequently there is no open water to be seen as far as the eye can reach. On the shore are piled great hills of ice from 15 to 30 eet in height, and extending for miles. The sight is said to be the grandest, in its wintry aspect, ever

INFORMATION

FOR

Farmers of North Carolina.

Gentlemen—Two years ago, at the request of a number of the leading planters of your State, I endeavored to form what was then known as the No th Carolina Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the them prevailing high prices for fertilizers by forming a Farmers' Manufacturing Company, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the production at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we met for organization, the faise reports, &c., of those who were interested in preventing its formation prevailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of failure. Although I have refused to attempt the re-formation of said company, yet I have single-handed carried on the fight we jointly began for lew prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In introducing Guanahani Guano last year, consistancy to this policy was; shown, although the chemical endorsement from the highest authority in the land entitled the Company to charge a much higher price than the \$10 per ton at which it was placed on the market.

It was expected that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the past year. I desire no better vindication than the certificates contained in the circular of that Company, showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation.

That a high standard of knowledge in regard to agricultural chemistry does not e certificates contained in the circular of that Company, snowing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation.

That a high standard of knowledge in regard to agricultural chemistry does not exist among the farming public, there is no doubt; in fact, all admit it; but while regretting the same, hope for better days to come.

The above being true, we must expect to find opposition to new ideas, until the time when practical demonstration of the plantation shall drive out the existing prejudice for cid things.

Such a prejudice existed last year in regard to Guanahani Guano. Many did not even grant it a small trial or test, from the fact that it did not emit the odor by which they have been in the habit of judging of the good qualities of a fertilizer. But few are aware that forms of nitrogen or ammonis, other than a volatile condition, exist, and that two; or three of said other forms are, for many reasons, more valuable for agricultural purposes than even the saits of ammonia in Peruvian Guano.

Again: but few are aware that phosphoric acid or phesphate of lime exist in a natural guano in different forms from those contained in manufactured fertilizers. The farming public have been taught to look for soluble, precipitated and insoluble phosphoric acid, and have been left entirely in the dark as regards neutral phosphoric acid, pronounced by all chemists, and estimated in all tables of agricultural value of such ragredien s, to be worth the same as the soluble phosphoric acid of the manufactured article.

Such prejudices as these operated more against the introduction of Guanahani Guaarticle.
Such prejudices as these operated more against the introduction of Guanahani Guano than all others.

In order to eradicate these faise ideas or prejudices. I appeal to that almost infallible verdict that comes from the plantation test, and refer you to the certificates con-Tasse certificates are from different sections of the States of North Carolina, Virginia and Maryland, where Guanahani was used during the set by a link of the Carolina they will be tonad, on examination, to stand for evilla in the East to Charlotte in the West and from the first agricultures. The judgment in these cases has not been made on account of a finespectal as used or stalk, but from final results—as shown by the an ount of grain or second on send I know of no better mode of judging than "By their fauts ye shall know the a."

With respect, yours truly,

WM. R. GRIFFITH

A NEW ENTERPRISE.

WM. R GRIFFITH

Having resigned as General Agent of the Guanahani Guano Company after my re-election, I desire to call your attention to the new enterprise in which I am engaged as General Agent, and to inform you that I intend to still carry on the fight for low prices. Messrs. Thos. Branch & Co., of Richmond, Virginia, having secured a large deposit not covered by the grant to the other company operating the same islands, I now offer you at a reduced price the same guano from the same islands as that I introduced to you last year under another name.

The guano now offered you will be known as CAT ISLAND GUANO, and will be delivered as it is imported (without manipulation), being a genuine guano.

With respect, yours truly,

WM. R. GRIFFITH,

General Agent for Cat Island Guano.

Imported by Thomas Branch & Co., Richmand, Virginia.

UNIVERSITY OF GEORGIA, LABRATORY OF APPLIED CHEMISTRY, ATHENS, GA., February 9th, 1875. WM. R. GRIFFITH, Esq., Gen. Agent Cat Island Guano, Richmond, Va:

DEAR SIR-In reply to yours, I would say I am UNDOUBTEDLY of the opinion that in most NATURAL GUANOS the forms of combination of the valuable elements present are SUPERIOR to those which are artificially produced in manipulated fertilizers, and although this cannot enter as a factor in determining COMMERCIAL value, it INCREASES the relative AGRICULTURAL value of natural Guanos to a considerble extent.

Very truly yours,

H. E. WHITE, Prof. of Applied Chemistry Georgia University.

Sing my friends a little song;

As I 'ook a stroll through Baseigh
One sultry afternoon
I called to get a glass of Ale
At JOSEPH'S Central Subson;
Oh, Joe, sa d I, I'm very dry,
Have you Ale that isn't sour?
Said he, my Ale is never state,
I buy from Frederick Lauer Chorus-Then tap your Aie, the Reading

Ale.
The Ale that don't sour—
It keeps so long because its strong,
And brewed by Frederick Lauer. I heard a song that McEven's Ale Was high in public favor! It can't compare with Reading Ale In richness or in flavor, For Lauer has the best of Malt, Good brewers and good Barley:

His Ale is fine as the "Champagne That's drank by Champagne Charley Chorus-Then tap your Ale, the Beading Ale, The Ale that don't get sour— It keeps so long because its strong, And brewed by Frederick Lauer.

Now, if ever you pass through Raleigh, Just stop one afternoon And take a glass or two of Ale At Joseph's Central Salcon, And if you chance to stay over, And if you chance to stay over, You'll find out very soon That the acknowledged headquarters of Is Joseph's Central Salcon.

Chorus-For Joe will keep the wholesome Ale,
The Ale that don't get sour;
It keeps so long because its strong,
And brewed by Frederick Lauer.

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the tertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. Reed the following opinions of some who have used WHANN'S RAW BONE SUPER-PHOSPHATE: Messrs. Williamson, Upchurch & Thomas:

Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last
Spring made the best crop of cotton I ever made, and I consider it decidedly the best
fertilizer I ever used, I want it again next season.

Yours truly,

S. W. MITCHELL. Green Level, Wake County, N. C., Nov. 25, 1874.

Louisburg, N. C., Nov. 9, 1874. Messrs. King, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JOHN E. THOMAS.

Messrs. Williamson, Upchurch & Thomas, Raieigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the mason dry, but the cro; s surpass dour expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Louisburg, N. C., November 7, 1874. M. ssrs. King, White & Shaw:
I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer. Louisburg, N. C., Nov. 10, 1874.

I have been using Whann's Faw Bone Super-Phosphate and other kinds of manufactured fertilizers for several years, and feel confident in saying that I prefer Whann's to any other. I cheerfully recommend it to be a first-class fertilizer, and expect to continue its use as long as its present standard is kept up.

GUANAHANI GUANO COMPANY.

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guane on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

in a condition as to dryness and freedom from tumps, equal to any standard the filzer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our Fertilezer Superior to many, and second to NoNE.

We confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
